

# KEISER INFINITY SIX PACK

Model 3010 x 6 + Model 3015

## SMALL FOOTPRINT, BIG RESULTS

The Six Pack came about because of requests to configure our Performance Trainers around a column without having to attach the units to the column. The Six Pack turned out to be the perfect solution. It doesn't have to go around a column. It's an ideal way to have six Performance Trainers grouped in the middle of the floor and saves having to mount the Performance Trainers on a wall. The maximum diameter of column the Six-Pack will fit around is 29" [737 mm]. If your column, regardless of shape, will fit inside a 29" [737 mm] diameter circle, our standard Six-Pack configuration will fit around it. For columns larger than 29" [737 mm], contact Keiser at +1 559 256 8000 or your Keiser Regional Sales Manager for a quote on a special configuration.
